Professional Summary

Full Stack Developer with 2.5+ years of experience in web solutions and AI-powered applications. Expertise in modern frameworks, scalable architecture, and AI integration. Proven track record in leading development initiatives and delivering enterprise-level solutions.

Skills

Frontend: Angular, React, JavaScript, TypeScript, HTML5, CSS3

Backend: Node.js, Express.js, Hono, Chanfana, Prisma ORM, Sequelize ORM, Drizzle ORM

Databases: MongoDB, MySQL, PostgreSQL, MSSQL

AI/ML: AI Integration, Voice AI, face-api.js

DevOps: Docker, Nginx, Jenkins, PM2, AWS, Cloudflare, Netlify, Vercel, Railway, Firebase

Tools: Git, Postman, VS Code, Jira, Trello

Professional Experience

Full Stack Developer — Consumer Sketch | Nov 2025 – Current

- Designed RESTful APIs with focus on performance and security
- Collaborated with cross-functional teams on high-quality solutions

Backend Developer — Techmero | July 2025 – Nov 2025

- Architecting scalable backend systems for multiple client applications
- Built AI calling agent for restaurant orders with natural language processing and automated order placement
- Developed backend infrastructure for TrueSoul relationship app and AI Resume Builder
- Integrated third-party AI services and managed real-time data flows

Software Developer — Garima System Solutions Pvt. Ltd. | June 2024 – May 2025

- Led Angular development for enterprise applications
- Designed RESTful APIs and implemented secure authentication (JWT, OAuth)
- Conducted code reviews and mentored junior developers

Full Stack Developer — Proses Web Technologies Pvt. Ltd. | Feb 2023 – May 2024

- Developed web applications using JavaScript, Node.js, Angular, React, and MySQL
- Participated in full SDLC from design to deployment
- Built scalable frontend and backend systems
- Trained in enterprise architecture and deployment best practices

Projects

AI Calling Agent for Restaurant Orders
AI-powered voice agent handling customer calls and order placement through natural conversation
Technologies: Node.js, AI/ML APIs, Voice Recognition, NLP

TrueSoul - Relationship App Backend
Complete backend supporting user profiles, matching algorithms, and real-time messaging
Technologies: Node.js, Express.js, MongoDB

AI Resume Builder
Intelligent platform generating optimized resumes with AI-powered suggestions
Technologies: Node.js, AI/ML Integration, React

MIDAS (Asset Management System)
Enterprise asset tracking system handling physical verification across multiple locations
Technologies: .NET, Angular, MSSQL
Achievement: Led frontend development from scratch with scalable architecture

Heritage (Dairy Management)
Application monitoring milk inflow/outflow with interactive dashboards and reporting
Technologies: .NET, Angular, MSSQL

Rogler (ERP System)
Business management platform with reusable components and multilingual support
Technologies: Angular, DevExtreme

ISCCM (Medical Community Platform)
Collaboration platform for medical professionals with CRUD operations and mobile APIs
Technologies: Node.js, Sequelize ORM, React, Angular, MSSQL

Emotion-to-Emoji Translator
Real-time emotion detection web app using facial recognition
Technologies: JavaScript, face-api.js
Link: https://mood-to-emoji.netlify.app/

PTM Lab — SaaS Experiment Hub
Platform hosting creative tools: Thought-to-T-Shirt Generator, Meme Maker, Magic Trick app
Status: In development

Education

Bachelor of Computer Application
